Learning Tree™

Story Machine™

STORY MACHINE is an educational game that helps children learn to write sentences, paragraphs, and simple stories.
With STORY MACHINE, your child will experience the excitement of creating stories and seeing them come to life, using a supplied list of words, including nouns, verbs, prepositions and other parts of speech.

For example, your child types the sentence: The boy walks to the tree. The screen will act out the sentence showing the boy walking to the tree using full colour graphics and sound.

And like all Learning Tree products, STORY MACHINE combines learning with fun and excitement.

DesignWare, creators of STORY MACHINE, is a company of educators and computer professionals specializing in computer programs for children.

Educational Value: STORY MACHINE helps children learn to write correctly, provides familiarity with the computer keyboard, and helps develop a positive attitude towards writing. Ages 5–9.
